

My name is Debbie. I have done Crystal Meth for 6 years on a daily basis, I have tried to quit on several occasions the longest being 12 months when I got pregnant with my 2nd child in March of 2003, but I never got my life back from using meth for 4 years so 2 months after my son was born I relapsed hoping to get some energy back. This went on for another 2 yrs and I almost lost my family because of it. I had searched for ways in hope to at least regain part of my life back then I discovered Imagine Laser Works. On January 10, 2006 I went in for my 1st of 6 treatments. When I walked into the office that day I was very angry at what I am still not sure, but 40 min later I had noticed a very big change in my emotions the anger was gone instead I was calm and relaxed and my only thought was WOW something that had made go from being angry to relaxed in 40 min is worth giving it a fair trial so with the support of the staff at Imagine Laser Works and some very important health tips I went home and to my surprise I had no cravings or withdrawals and at 45 days clean today, I feel stronger than I have ever felt before and I have no desire to ever go back down that dark road ever again. I would like to say Thank-You to all the staff at Imagine Laser Works for all you have done and helped me through. I could not have done this without your help and support. You have truly made a difference in my life and I now have so many possitive things happening for me right now and it is all because of you. Thank You so much.

Ex Meth User  
Debbie

I Really didn't like the other one so I was wondering if you would change it to this one and the other one is kinda mixed up with the lady who came in for alchohol. mine looks like I had Drugs and Alchohol problems.....LOL
