

Dear Debbie

On Jan. 10th 2006 you took the final step to becoming alcohol free. Congratulations on your commitment to a healthier lifestyle! Staying free from alcohol takes commitment and determination, but whatever it takes will be well worth the effort, as health is a most valuable possession. Should you ever need additional support please do not hesitate to call us. We are here to help you.

We would appreciate a few comments regarding your experience at Imagine Laserworks. Your comments could help others enjoy an alcohol free lifestyle. You could explain how it compared to other times you tried to quit using alcohol and how your life has changed now that you are free.

Again, congratulations on your commitment to a healthier lifestyle! We wish you the best health and happiness.

Sincerely
Ralph Semple

This is wonderful and yes -
a miracle - I would never have
believed it would make trying to
stop drinking so simple. I never
think about ~~it~~ AT ALL - It has
ALCOHOL
made such a positive change to -

Suite 214-1676 Martin Dr. White Rock BC Canada Ph. 604-538-2106 Fax 604-538-2156
www.imaginelasers.com

my life. While drinking
was not "really" a problem - I found
over the years I would think of
going home and having a "glass of
wine" - this could and would turn
into more than 2 or 3 a night.

Trying to limit it to weekends
only - turned into Thursday to Sun
then gradually creep up to every
night. Imagine Laser works
stopped that with no mental
anguish or any neg side effects.
This is wonderful. Thank you!
